

# DOMINIK GRONKIEWICZ

Nicolaus Copernicus Astronomical Center  
of the Polish Academy of Sciences

## RESEARCH INTERESTS

- Radiative transfer
- Accretion disk coronae and atmospheres
- Processes in hot-cold phase interface regions
- Solar physics
- Light pollution modelling

## HOBBY AND OUTREACH

- Amateur astronomy & astrophotography
- Lecturer during astronomy camps for talented high school students organized by Almukantarat astronomy club
- Solar flare observation campaign for amateur astronomers (F-CHROMA)
